CAREER OBJECTIVE

I'm a motivated Computer Science student with hands-on experience in Python full-stack development and a strong interest in machine learning. I enjoy building practical applications using Django and web technologies. I'm looking for an opportunity where I can keep learning, improve my skills, and contribute to real-world software projects.

EDUCATION

- **B.Tech in Computer Science (AI&ML)**
GMR Institute of Technology (GMRIT) - *Pursuing*
- **Senior Secondary (Class XII)**
APTWR Jr College (Boys), 2023 - **76%**
- **Secondary (Class X)**
Don Bosco [E.M] High School, 2021 - **CGPA: 9.6 / 10**

WORK EXPERIENCE

Python Full Stack Development Intern, Data Valley Company, Vizag (June - June 2025)

- Developed full-stack web applications using Python (Django) and Bootstrap.
- Built an Employee Management System with CRUD operations, authentication, and role-based access.
- Designed responsive UI using HTML, CSS, JavaScript, and Bootstrap.
- Created and integrated RESTful APIs for smooth frontend-backend communication.
- Used Git for version control and worked in a team-based development environment.

PROJECTS

- **Anime Streaming Website (HTML, CSS, JavaScript)** **2024**
Designed and developed a responsive anime streaming website inspired by platforms like Crunchyroll using HTML, CSS, and JavaScript. Focused on creating a user-friendly interface with features for browsing and viewing content, and implemented interactive elements to ensure smooth navigation and a good user experience.
- **AI Chatbot using LLM (Ollama, Python)** **2025**
Built an AI chatbot powered by a local large language model using Ollama and Python. Implemented prompt handling and response generation for interactive conversations, and integrated the model with a simple interface to provide real-time, meaningful responses.
